

## Beyond Intention to Impact Session D5 Engagement Strategy

Name		<i>Example: Jill Smith</i>
District		<i>AnyTown</i>
School		<i>Middle School</i>
Email		<i>JillSmith@Anytownschools.org</i>
Strategy		<i>Grade Level Teacher Teams</i>
Where Implemented?		<i>7th Grade</i>
Connect to Three “E”s		<i>Empower</i>
What worked?		<i>Families really liked helping determine what are the skills their child should develop and then helping to monitor the student's progress.</i>
For Whom?		<i>The parents that attended the F2F presentation in the Fall of 2021</i>
Under What Conditions?		<i>Guidance at the school building in the classroom.</i>
What Can Be Improved?		<i>We could offer this remotely. The teacher could present while parents have access to their child's folder either electronically or paper, whichever the family prefers. This could also be a recorded session so parents that cannot attend virtually could access the recording in another manner.</i>
How can we scale it up?		<i>We could take this up to high school, we could add additional skill development for students and not targeting just one skill.</i>
How can we Co-Create it?		<i>Ask the families what works best, when, where (with 100% contact of every child's parent as the goal) Starting in August and into the first two weeks of September.</i>
I used to think and now I think...		<i>I used to think that families who didn't participate in our events, didn't care. I now realize we didn't co-create WITH the families.</i>
